

Tennessee Society of Health-System Pharmacists MidYear Seminar

Sunday, February 26, 2012 • 8:00 a.m. – 4:45 p.m.
Doubletree Hotel, Downtown Nashville

Join your colleagues in a day of networking and learning. TSHP's Annual MidYear Seminar is the premier event for health-system pharmacists in Tennessee. It is a unique venue that offers an opportunity for pharmacists practicing in a health-system environment to update their knowledge, enhance their skills, and meet with other pharmacists with shared experiences. At this pivotal time in health-care, there is an urgent need to create a forward thinking hospital and health-system practice model that makes the most effective use of pharmacists as direct patient care providers. This meeting will address the development of a future practice model that is responsive to healthcare reform and the health system of the future. The PPMI will have a long-lasting impact on the profession of pharmacy; therefore current and future pharmacy professionals must embrace these initiatives and change the practice model. Therapeutic topics such as recent advances in anticoagulation and antiplatelet therapy and clinical practice pearls are just a few of the other topics. During the buffet luncheon, you can visit with the exhibitors to learn about the latest products and services and visit with the poster presenters.

TENTATIVE SCHEDULE – TIMES AND PROGRAMS MAY CHANGE (6 CE HOURS)

8:00 – 9:00 am	Small Rural Hospital Open Forum Committee Meeting
9:00 – 10:00 am	Update on Antiplatelet Therapy: New Drugs and New Information on Old Drugs [0064-0000-12-100-L01-P] <i>Carrie Oliphant, Pharm.D., BCPS (AQ Cardiology), Methodist Healthcare—University Hospital</i>

SEMINAR HANDOUTS

For your convenience, the session handouts will be posted on the TPA website as they become available. Any handouts not posted prior to the seminar will be posted after the seminar concludes. Instructions on how to access the handouts online, along with the required password, will be emailed to registered participants after February 1. Handouts may be printed and/or downloaded. The meeting room will have wireless internet access available during the seminar.

LEARNING OBJECTIVES (Specific Learning Objectives will be provided on the TPA website.)

At the conclusion of this seminar, participants will be able to:

1. Review the appropriate dose of aspirin by indication
2. Describe the variables that affect clopidogrel responsiveness
3. Evaluate the pharmacology, clinical literature and potential role of the new antiplatelet agents
4. Identify options for reversal of new oral anticoagulants
5. Discuss the difference between mechanisms of action of new oral anticoagulants
6. Understand patient selection of new oral anticoagulants
7. Recognize FDA approved indications of the new oral anticoagulants
8. Articulate how new oral anticoagulants affect the National Patient Safety Goals
9. Outline the incidence, mortality, and morbidity of chronic obstructive pulmonary disease (COPD) in the United States
10. Explain current evidence-based strategies for management of COPD
11. Discuss emerging treatment options for the management of COPD
12. Describe the role of the pharmacist in managing patients with COPD
13. Know at least one practice pearl tool that will benefit you, your practice and your patients
14. Describe the goals of the ASHP/ASHP Foundation Pharmacy Practice Model Initiative (PPMI)
15. Summarize recommendations from the PPMI summit and discuss methods to assess how hospitals compare to these recommendations
16. Discuss how TSHP and Tennessee pharmacists can lead implementation of the recommendations from the PPMI

TSHP MidYear Seminar • TPA MidYear Meeting

2012 REGISTRATION FORM
