TPA is offering Community Pharmacies this incredible opportunity as low as $50 per person.

As a participant, you will leave this program better equipped with the necessary tools and resources to drive value in your pharmacy. These tools include discussions about P&L statements, methods to measure and evaluate current and future operations, and virtually every other aspect of drivers of value within a successful pharmacy practice. If you attended last year’s program, you know that this presentation takes the audience beyond the basics of financial statement analysis in a sophisticated, plain-English, enjoyable, decision-relevant format. Be enlightened in this session and learn how to more effectively work to identify, measure, and manage the key drivers of value. Learn how to use a unique Breakeven 360° tool in your pharmacy to help you identify and quantify opportunities to positively impact value and cash flow.

“Profit Mastery is AMAZING! It provided me with simple, easy and fun tools I have already used in my pharmacy practice. This class should be required for every person who is considering opening a business or is currently running one.”

- Jim McBride, PharmD, Owner, Clinton Drug Store

Learning Objectives:
1. Review the correlation between cost patterns and profits to assist in determining break-even points in business
2. Identify key drivers of cost and review strategies to reduce costs
3. Evaluate the impact of personnel changes on budgets
4. Discuss ways to expand your pharmacy practice through professional services and programs

Stay through February 23 and 24 - Join your fellow colleagues at the 2015 TPA Midyear Meeting, including our Legislative Reception at the Sheraton Nashville on the evening of February 23rd. TPA needs YOUR help to move the profession of pharmacy forward!
