

DELIVERING MEDICATION THERAPY MANAGEMENT SERVICES

— A CERTIFICATE PROGRAM FOR PHARMACISTS AND STUDENT PHARMACISTS —

FRIDAY, AUGUST 29, 2014

FRANKLIN MARRIOTT COOL SPRINGS

700 Cool Springs Boulevard, Franklin, TN 37067

Presented by the TENNESSEE PHARMACISTS RESEARCH AND EDUCATION FOUNDATION
and the AMERICAN PHARMACISTS ASSOCIATION

DELIVERING MEDICATION THERAPY MANAGEMENT SERVICES, a certificate program, is an active learning seminar in which participants practice a variety of communication techniques to elicit a patient's medication experience and identify medication-related problems, using cases based on the real-life experiences of MTM providers. Participants will gain experience interviewing patients, identifying and prioritizing medication-related problems, developing and implementing interventions, and documenting activities. In addition, participants will have the opportunity to explore various business models and billing strategies and discuss plans for implementation. Through additional pre-seminar self-study modules, case studies, hands-on patient interventions, and assessment practice sessions, pharmacists will obtain the clinical knowledge and skills needed to establish medication therapy management services.

CANCELLATION POLICY AND ADDITIONAL FEES:

On or after August 8, 2014, if the required minimum number of registrants is met, TPREF will email each registrant a message containing an online enrollment code and instructions for enrolling and completing the self-study portion of the program through the online portal. Due to policies and fees implemented by the American Pharmacists Association, no refund will be given once the participant has redeemed an online program code. Once the participant has redeemed his or her enrollment code, the participant is responsible for all activity thereafter. Participants' materials will be provided for download via an online portal, and participants will complete exams and evaluations online. Upon completion of coursework, Statements of Credit and Certificates of Achievement can be printed directly by participants online. If a participant fails to successfully complete the program, the participant will need to retake the entire program at a later date using a new Enrollment Code, and the participant will incur an additional fee (\$125 for a pharmacist or \$95 for a student) at that time. If a participant redeems an Enrollment Code more than one time by using a different name, or redeems more than one Enrollment Code, the participant will be charged an additional fee (\$125 for a pharmacist or \$95 for a student) for each additional enrollment code redeemed. If a participant fails to reenter the online system within the designated time period after the live seminar date in order to complete the program, the participant will be charged a \$25 fee to gain reentry into the system. Refunds, less a \$50 handling charge, will only be issued for cancellations received in writing prior to August 8, 2014, and only if the participant has not redeemed a program enrollment code.

A **CERTIFICATE OF ACHIEVEMENT** is awarded to participants who successfully complete all activity requirements, which include the self-study activity and pre-seminar exercises, the self-study examination, the live training seminar, and the post-seminar patient cases. Successful completion is defined as a submission of the pre-work and post-work, a self-study examination score of 70% or better, and attendance at the live seminar. Statements of Credit and a Certificate of Achievement will be available online upon successful completion of the necessary activity requirements. These documents are available in the participant's "My Training" page on www.pharmacist.com. The American Pharmacists Association is accredited by the Accreditation Council for Pharmacy Education as providers of continuing pharmacy education.
